Blue Cross Blue Shield of Michigan - Medicare Part D, PFFS and PDP Quantity Limit Restriction List January 1, 2010

BCBSM-Medicare Part D, PFFS and PDP limits the amount of some medications to ensure our members receive the most appropriate and cost-effective drug therapy. Drugs subject to **Quantity Limits** (QL) have been approved by Medicare and are identified in the formulary list with QL. If any drugs listed below have a **(g)** noted, the QL will apply to the generic version of the drug. Your physician can contact our pharmacy help desk to request an exception to the limit on your drug.

The quantity limits are based upon current medical information and the recommendations of the Blues' Pharmacy and Therapeutics Committee, a group of physicians, pharmacists and other experts.

Please call the Customer Service number on the back of your BCBSM ID card if you have questions about your drug coverage or drug claim.
