Blue Care Network Custom Select Drug List

The Blue Care Network of Michigan *Custom Select Drug List* is a useful reference and educational tool for prescribers, pharmacists and members.

We regularly update this list with medications approved by the U.S. Food and Drug Administration and reviewed by our Pharmacy and Therapeutics Committee. The list represents the clinical judgment of Michigan doctors, pharmacists and other experts in the diagnosis and treatment of disease and the promotion of health. The committee selects medications based on safety, clinical effectiveness and opportunity for savings.

This drug list is updated monthly. Refer to our [Drug List Updates](#) document for recent changes or updates that may not yet be reflected on our drug lists.

About this drug list

Use this list to find information about your drug coverage and medication options. It's divided by chapter into major drug classes or indications for use. Products approved for more than one use may be included in more than one chapter. Within each chapter, drugs are identified according to their tier placement. Refer to the ["Reading your drug list"](#) section for details.

We encourage doctors to prescribe preferred medications whenever possible. BCN respects the judgment of dispensing pharmacists and expects them to contact the prescribing health care professional when a drug or dose may not be appropriate for a member. We also encourage pharmacists to contact the prescriber to suggest an alternative when a prescription is written for a nonpreferred or excluded drug.

Coverage and applicable out-of-pocket costs for drugs on this list are based on your drug plan. Not all drugs included in the list are covered by each member's plan. Drugs that aren't listed may not be covered.

Some medications excluded by your pharmacy benefits may be covered under your medical benefits. These are medications that are generally administered in a doctor's office under the supervision of appropriate health care personnel and aren't normally dispensed for self-administration.

Nonformulary drugs (Drugs that aren't covered)

Our goals are to provide you with safe, high-quality prescription drug therapies and keep your medical costs low. To accomplish this, we don't cover some high-cost drugs that have comparable therapeutic alternatives with similar effectiveness, quality and safety, but at a fraction of the cost. For the most recent list of drugs that aren't covered with suggested alternatives, refer to [Custom Select Drug List - Alternatives for nonpreferred and nonformulary \(not covered\) drugs](#). If you have a question about a drug that isn't covered and doesn't appear on this list, call the Customer Service number on the back of your BCN member ID card.

Several drugs and drug categories are excluded altogether from coverage under this drug list and are not shown. These include:

- Brand-name drugs when there's a generic equivalent available
- Prescription drugs for which there is an over-the-counter equivalent in both strength and dosage form (unless considered preventive by the United States Preventive Services Task Force)
- Over-the-counter medications (unless considered preventive by the U.S. Preventive Services Task Force)
- Lifestyle drugs (such as drugs to treat erectile dysfunction or weight loss)
- Prenatal vitamins
- Drugs used to treat heartburn and acid reflux (except select generic versions)
- Drugs that treat coughs and colds, including most antihistamines
- Drugs used for experimental purposes
- Drugs prescribed for cosmetic purposes
- Products covered as a medical benefit (for example, injectable drugs and vaccines that are usually administered in a doctor's office)
 - Note: All BCN members can get multiple common vaccines at network retail pharmacies. Restrictions may apply.
- Compounded products, with some exceptions
- Replacement prescriptions resulting from loss, theft or mishandling
- Drugs not approved by the FDA

Preferred alternatives for nonpreferred and nonformulary (not covered) drugs

Refer to **Custom Select Drug List - Alternatives for nonpreferred and nonformulary (not covered) drugs** for a list of suggested covered preferred alternatives for nonpreferred and nonformulary drugs that can be dispensed with lower out-of-pocket costs. Alternatives may represent a different drug class, contain different ingredients or may be available in strengths or dosage forms that differ from the prescribed branded products. When pharmacies fill prescriptions for preferred alternatives, the generic equivalents are dispensed, if available. Additional coverage requirements may apply for preferred alternatives, such as prior authorization.

Specialty drugs

For more information on specialty drugs, see the **Specialty Drug Program Pharmacy Benefit Member Guide**. Specialty drugs are limited to a 30-day supply. Select specialty drugs are managed by the **15-Day Specialty Drug Limitation Program**. Drugs included on this list are limited to a 15-day supply for all fills. Members pay half their usual out-of-pocket cost for a 15-day supply. For more details, visit **bcbsm.com/pharmacy**.

Preventive drug coverage

Under the Affordable Care Act, also known as national health care reform, most health care plans must cover certain preventive services and prescription drugs with no out-of-pocket costs. These drugs will have a “PV1,” “PV2” or “PV3” listing in the “Notes” column of the drug list.

For a complete list of preventive drugs and coverage requirements, refer to our **Preventive Drug Coverage** list or visit **bcbsm.com/pharmacy**. For information specific to your prescription drug benefits, check your plan documents.

New generics

When a generic version of a brand-name drug becomes available, the generic version is generally added to Tier 1. After the generic drug is added, the original, brand-name version won't be covered.

Brand-for-generic substitution

Select brand-name drugs may be covered at a generic copay, and the generic drug will not be covered. These brand-name drugs will be shown without the generic drug and will be listed with a generic copay.

Prescription coverage

For details about your prescription drug benefits, call the Customer Service phone number on the back of your BCN member ID card. If you have online access, log in to your account at **bcbsm.com** or the Blue Cross mobile app. You can also find general information about BCN prescription drug coverage at **bcbsm.com/pharmacy**.

Vaccines

Select vaccines are covered at pharmacies without out-of-pocket costs for most members whose pharmacies participate with Blue Cross and are certified to administer vaccines.

Reading your drug list

This drug list gives you options so you and your doctor can decide your best course of treatment. In this drug list, brand-name medication names are shown in UPPERCASE (for example, CLOBEX). Generic medication names are shown in lowercase (for example, clobetasol).

Tier information

Using lower tier or preferred medications can help you lower your out-of-pocket cost. Note: If you have a high-deductible health plan, the tier cost levels will apply once you meet your deductible. For tiering information specific to your drug benefit, check your plan documents.

Select drugs in Tier 1a, 1b, 2 or 3 may also be covered with no out-of-pocket costs when health care reform requirements are met. These drugs will have a “PV1,” “PV2” or “PV3” listing in the “Notes” column of the drug list.

Drug Tiers	6-tier plan
Not covered	Nonformulary This tier includes nonformulary high-cost, FDA-approved, prescription-only drugs that have comparable therapeutic alternatives with similar effectiveness, quality and safety, but at a fraction of the cost. Nonformulary drugs aren't covered.
Covered \$0	No out-of-pocket cost This tier includes select products that are covered with no out-of-pocket costs.
Preventive	No out-of-pocket cost This tier includes drugs that are covered with no out-of-pocket costs when health care reform requirements are met. When health care reform requirements aren't met, the drug isn't covered.
Preferred generic	Preferred generic – Lower generic out-of-pocket cost This tier includes common, nonspecialty generic and select brand-name drugs that treat certain chronic diseases. Offering these drugs at the lowest out-of-pocket costs makes them more accessible to members and helps ensure they take them as prescribed.
Nonpreferred generic	Nonpreferred generic – Higher generic out-of-pocket cost This tier includes nonspecialty generic drugs that aren't preferred generics. Nonpreferred generic out-of-pocket costs are higher than preferred generic drugs but still lower than the costs for brand-name drugs.
Preferred brand	Preferred brand – Higher out-of-pocket cost This tier includes nonspecialty, preferred brand-name drugs. These drugs are more expensive than generics, and members pay more for them.
Nonpreferred brand	Nonpreferred brand – Highest out-of-pocket cost This tier includes nonspecialty, brand-name drugs for which there's either a generic alternative or a more cost-effective, preferred brand-name drug available. Members pay more for these nonpreferred brand-name drugs.
Preferred specialty	Preferred specialty – Lower out-of-pocket cost This tier includes both generic and brand-name specialty drugs that are used to treat difficult health conditions. These drugs are generally more cost-effective than nonpreferred specialty drugs.
Nonpreferred specialty	Nonpreferred specialty – Higher out-of-pocket cost This tier includes nonpreferred brand-name, specialty drugs that are used to treat difficult health conditions. Members pay more for nonpreferred specialty drugs because there are more cost-effective generic or preferred drugs available.

Drug list information

In this drug list, some medications are noted with letters next to them to indicate which ones may have coverage requirements or limits. Your drug plan determines how these medications may be covered.

AL	Age limit – Age restrictions apply.
ABA	Authorized brand alternative – Approved brand medication marketed by either the brand company or another company without the brand name on its label. Authorized brand alternatives are drugs that are considered brand-name drugs and don't have generic equivalents. These drugs are the same as the brand-name drugs but are not true generic drugs. The respective brand out-of-pocket costs will apply for these medications. Some authorized brand alternatives may not be covered.
PA	Prior authorization – Your doctor is required to give more information to determine coverage.
PV1	Preventive 1 – Covered with no out-of-pocket costs when health care reform requirements are met. When health care reform requirements are not met, the drug is not covered.
PV2	Preventive 2 – Covered with no out-of-pocket costs when health care reform requirements are met. When health care reform requirements are not met, coverage and applicable out-of-pocket costs apply, based on the members' benefit design.
PV3	Preventive 3 – Covered with no out-of-pocket costs when health care reform requirements are met. When health care reform requirements are not met, coverage and applicable out-of-pocket costs apply, based on the members' benefit design. Additional coverage requirements may apply.
QL	Quantity limit – The quantity of medication dispensed at one time is limited.
SP	Specialty medication – Specialty medications treat complex health conditions and may require special handling or administration.
ST	Step therapy – Requires you try one or more preferred drugs before a higher-cost medication can be covered.
15DS	15-day supply – Limits the amount of certain specialty drugs to a 15-day supply to help reduce out-of-pocket costs and waste.

How to fill a prescription

The type of drug you take determines which pharmacy you may use.

- **Specialty drugs**

- Local retail pharmacy
 - Walgreens is our preferred specialty pharmacy. Find a location at [walgreens.com/pharmacy/](https://www.walgreens.com/pharmacy/)*.
 - You can use any retail pharmacy in your applicable network.
- Limited-distribution specialty drugs
 - Pharmacy options vary based on the drug. Refer to the [Specialty Drug Program Pharmacy Benefit Member Guide](#), and search for the drug you take.
- Home delivery
 - AllianceRx Walgreens Pharmacy**
 - Website: alliancerxwp.com*
 - Telephone: 1-866-515-1355

- **All other drugs**

- Local retail pharmacy — More than 2,300 retail pharmacies in Michigan and 65,000 retail pharmacies outside of Michigan accept your member ID card.
- Home delivery
 - Optum Home Delivery***
 - Telephone: 1-844-642-9087

If you have questions about which home delivery service to use, call the Customer Service phone number on the back of your BCN member ID card or visit bcbsm.com/pharmacy.

* Blue Cross Blue Shield of Michigan and Blue Care Network don't own or control this website.

** AllianceRx Walgreens Pharmacy® is an independent company that provides specialty pharmacy benefit management services for Blue Cross Blue Shield of Michigan and Blue Care Network.

*** Optum Rx® is an independent company providing home delivery pharmacy and other pharmacy benefit administration services for Blue Cross Blue Shield of Michigan and Blue Care Network.

How prior authorization, step therapy and quantity limits work

Prior authorization

Prior authorization may be necessary for coverage of certain medications. In these cases, the member must meet clinical criteria or additional information must be provided before coverage is approved. Clinical criteria are based on current medical information and approved by our Pharmacy and Therapeutics Committee.

Step therapy

Drugs subject to step therapy may require previous treatment with one or more preferred drugs before coverage is approved.

For a current list of drugs requiring prior authorization or step therapy, see the **Prior Authorization and Step Therapy Coverage Criteria** and refer to the column labeled *Blue Care Network Custom Select Drug List*.

Quantity limits

For certain medications, BCN limits the quantity that can be dispensed per fill. BCN sets quantity limits based on clinical appropriateness and manufacturer-recommended dosing for select drugs.

For a current list of drugs that have limits on the quantity that can be dispensed per fill, please see the **Quantity Limit Program**, and refer to the *Blue Care Network Custom Select Drug List*.

How to request authorization

Consult your prescription drug benefit packet for information on how to get prior authorization or request reviews for coverage of drugs that aren't included in your plan. You can also call the Customer Service number on the back of your BCN member ID card for more information.

- **To request coverage of a drug:** Fill out the **Coverage Request Form online at bcbsm.com**.
- **Write to:**
Pharmacy Services — Mail Code 512C
Blue Cross Blue Shield of Michigan
600 E. Lafayette Blvd.
Detroit, MI 48226-2998

Doctors can request authorization for you. We'll notify the doctor of approved requests and process the claim accordingly. If a request isn't approved, we'll notify you and the doctor in writing. The notification includes the reason for the denial, an explanation of your appeal rights and the appeals process.

Doctors can request authorization one of four ways:

- **Electronic prior authorization:** Doctors can use their electronic health record or CoverMyMeds® to submit electronic prior authorization requests for commercial pharmacy members.
- **Call:** 1-800-437-3803
- **Fax:** 1-866-601-4425
- **Write:**
Pharmacy Services — Mail Code 512C
Blue Cross Blue Shield of Michigan
600 E. Lafayette Blvd.
Detroit, MI 48226-2998

Pulmonary Fibrosis Agents			
OFEV		Preferred brand specialty	PA; SP; QL
pirfenidone	Esbriet	Preferred brand specialty	PA; SP; QL
Respiratory Tract Agents, Other			
acetylcysteine inhalation		Nonpreferred generic	
ANORO ELLIPTA		Preferred brand	QL
azelastine-fluticasone	Dymista	Not covered	QL
BREZTRI AEROSPHERE		Preferred brand	QL
COMBIVENT RESPIMAT		Preferred brand	QL
DUAKLIR PRESSAIR		Not covered	QL
FASENRA PEN		Preferred brand specialty	PA; SP; QL
HYPERSAL		Nonpreferred brand	
ipratropium-albuterol		Nonpreferred generic	
mometasone furoate nasal		Nonpreferred generic	QL
nebusal inhalation nebulization solution 3 %	Nebusal	Nonpreferred generic	
NEBUSAL INHALATION NEBULIZATION SOLUTION 6 %		Not covered	
NUCALA SUBCUTANEOUS SOLUTION AUTO-INJECTOR		Preferred brand specialty	PA; SP; QL
NUCALA SUBCUTANEOUS SOLUTION PREFILLED SYRINGE		Preferred brand specialty	PA; SP; QL
ORALAIR		Not covered	QL

Drug Name	Brand Reference	Drug Tier	Notes
potassium iodide oral	SSKI	Nonpreferred generic	
pulmosal	PulmoSal	Nonpreferred generic	
RYALTRIS		Not covered	QL
sodium chloride inhalation	Nebusal	Nonpreferred generic	
SSKI		Nonpreferred brand	
STIOLTO RESPIMAT		Preferred brand	QL
TEZSPIRE SUBCUTANEOUS SOLUTION AUTO-INJECTOR		Not covered	
TRELEGY ELLIPTA		Preferred brand	QL
Skeletal Muscle Relaxants			
BACLOFEN ORAL SOLUTION		Not covered	ABA; QL
baclofen oral tablet		Nonpreferred generic	
carisoprodol oral	Soma	Not covered	
chlorzoxazone oral tablet 250 mg		Not covered	
chlorzoxazone oral tablet 375 mg, 750 mg	Lorzone	Not covered	
chlorzoxazone oral tablet 500 mg		Nonpreferred generic	
cyclobenzaprine hcl er	Amrix	Not covered	QL
cyclobenzaprine hcl oral tablet 10 mg, 5 mg		Nonpreferred generic	
cyclobenzaprine hcl oral tablet 7.5 mg	Fexmid	Not covered	
dantrolene sodium oral	Dantrium	Nonpreferred generic	
FLEQSUVY		Not covered	QL
LYVISPAH		Not covered	QL
metaxalone		Nonpreferred generic	
methocarbamol oral tablet 1000 mg		Not covered	
methocarbamol oral tablet 500 mg, 750 mg		Nonpreferred generic	
MUSCUSOLICE		Not covered	
NORGESIC		Not covered	QL
NORGESIC FORTE		Not covered	

Drug Name	Brand Reference	Drug Tier	Notes
orphenadrine citrate er		Nonpreferred generic	
orphenadrine-aspirin-caffeine	Norgesic	Nonpreferred generic	PA; QL
ORPHENGESIC FORTE		Not covered	
OZOBAX		Not covered	QL
tizanidine hcl oral	Zanaflex	Nonpreferred generic	
Sleep Disorder Agents			
GABA Receptor Modulators			
EDLUAR		Not covered	QL
eszopiclone	Lunesta	Nonpreferred generic	QL
flurazepam hcl oral capsule 15 mg, 30 mg		Nonpreferred generic	QL
temazepam	Restoril	Nonpreferred generic	QL
triazolam	Halcion	Nonpreferred generic	QL
zaleplon		Nonpreferred generic	QL
zolpidem tartrate er	Ambien CR	Nonpreferred generic	QL
zolpidem tartrate oral	Ambien	Nonpreferred generic	QL
zolpidem tartrate sublingual		Not covered	QL
ZOLPIMIST		Not covered	
Sleep Disorders, Other			
BELSOMRA		Not covered	QL
DAYVIGO		Not covered	QL
doxepin hcl oral tablet	Silenor	Not covered	QL
HETLIOZ LQ		Nonpreferred specialty	PA; SP; QL
