Blue Care Network Custom Select Drug List

The Blue Care Network *Custom Select Drug List* is a useful reference and educational tool for prescribers, pharmacists and members.

We regularly update this list with medications approved by the U.S. Food and Drug Administration and reviewed by our Pharmacy and Therapeutics Committee. The list represents the clinical judgment of Michigan doctors, pharmacists and other experts in the diagnosis and treatment of disease and the promotion of health. New drugs must be reviewed by the committee prior to being considered for coverage. The committee selects medicationsbased on safety, clinical effectiveness and opportunity for savings.

This drug list is updated monthly. Refer to our **Drug List Updates** document for recent changes or updates that may not yet be reflected on our drug lists.

About this drug list

Use this list to find information about your drug coverage and medication options. It's divided by chapter into major drug classes or indications for use. Products approved for more than one use may be included in more than one chapter. Within each chapter, drugs are identified according to their tier placement. Refer to the "Reading your drug list" section below for details.

We encourage doctors to prescribe preferred medications whenever possible. BCN respects the judgment of dispensing pharmacists and expects them to contact the prescribing health care professional when a drug or dose may not be appropriate for a member. We also encourage pharmacists to contact the prescriber to suggest an alternative when a prescription is written for a nonpreferred or excluded drug.

Coverage and applicable out-of-pocket costs for drugs on this list are based on your drug plan. Not all drugs included on the list are covered by each member's plan. Drugs that aren't listed may not be covered.

Some medications excluded by your pharmacy benefits may be covered under your medical benefits. These are medications that are generally administered in a doctor's office under the supervision of appropriate health care personnel and aren't normally dispensed for self-administration.

Nonformulary (not covered) drugs

Our goals are to provide you with safe, high-quality prescription drug therapies and keep your medical costs low. To accomplish this, we don't cover some high-cost drugs that have comparable therapeutic alternatives with similar effectiveness, quality and safety, but at a fraction of the cost. If you have a question about a drug that isn't covered and doesn't appear on this list, call the Customer Service number on the back of your BCN member ID card.

Several drugs and drug categories are excluded from coverage under this drug list and aren't shown. These include:

- Brand-name drugs when there's a generic equivalent available
- Prescription drugs for which there is an over-the-counter equivalent in both strength and dosage form (unless considered preventive by the United States Preventive Services Task Force)
- Over-the-counter medications (unless considered preventive by the U.S. Preventive Services Task Force)
- Lifestyle drugs (such as drugs to treat erectile dysfunction or weight loss)
- Prenatal vitamins
- Drugs used to treat heartburn and acid reflux (except select generic versions)
- Drugs that treat coughs and colds, including most antihistamines
- Drugs used for experimental purposes
- Drugs prescribed for cosmetic purposes
- Products covered as a medical benefit (for example, injectable drugs and vaccines that are usually administered in a doctor's office)
  - Note: All BCN members can get multiple common vaccines at network retail pharmacies. Restrictions may apply.
- Compounded products, with some exceptions
- Replacement prescriptions resulting from loss, theft or mishandling
- Drugs not approved by the FDA

Specialty drugs

For more information on specialty drugs, see the **Specialty Drug Program Pharmacy Benefit Member Guide**. Specialty drugs are limited to a 30-day supply. Select specialty drugs are managed by the **15-Day Specialty Drug Limitation Program**. Drugs included on this list are limited to a 15-day supply for all fills. Members pay half their usual out-of-pocket cost for a 15-day supply. For more details, visit **bcbsm.com/pharmacy**.

Preventive drug coverage

Under the Affordable Care Act, also known as national health care reform, most health care plans must cover certain preventive services and prescription drugs with no out-of-pocket costs. These drugs will have a “PV1,” “PV2” or “PV3” listing in the“Notes” column of the drug list.

For a complete list of preventive drugs and coverage requirements, refer to our **Preventive Drug Coverage** list or visit **bcbsm.com/pharmacy**. For information specific to your prescription drug benefits, check your plan documents.

New generics

When a generic version of a brand-name drug becomes available, the generic version is generally added to Tier 1. After the generic drug is added, the original, brand-name version won’t be covered.

Brand-for-generic substitution

Select brand-name drugs may be covered at a generic copay, and the generic drug won’t be covered. These brand-name drugs will be shown without the generic drug and will be listed with a generic copay.

Prescription coverage

For details about your prescription drug benefits, call the Customer Service number on the back of your BCN member ID card. If you have online access, log in to your account at **bcbsm.com** or the Blue Cross Blue Shield of Michigan mobile app. You can also find general information about BCN prescription drug coverage at **bcbsm.com/pharmacy**.

Vaccines

Select vaccines are covered at pharmacies without out-of-pocket costs for most members whose pharmacies participate with Blue Cross and are certified to administer vaccines.

Reading your drug list

This drug list gives you options so you and your doctor can decide your best course of treatment. In this drug list, brand-name medications are shown in UPPERCASE (for example, CLOBEX). Generic medication names are shown in lowercase (for example, clobetasol).

Tier information

Using lower tier or preferred medications can help you lower your out-of-pocket cost. Note: If you have a high-deductible health plan, the tier cost levels will apply once you meet your deductible. For tiering information specific to your drug benefit, check your plan documents.

Select drugs in the Preferred generic, Nonpreferred generic, Preferred brand or Nonpreferred brand tiers may also be covered with no out-of-pocket costs when health care reform requirements are met. These drugs will have a "PV1," "PV2" or "PV3" listing in the "Notes" column of the drug list.

Drug Tiers	4-tier plan	6-tier plan
Not covered	**Nonformulary** This tier includes nonformulary high-cost, FDA-approved, prescription-only drugs that have comparable therapeutic alternatives with similar effectiveness, quality and safety, but at a fraction of the cost. Nonformulary drugs aren't covered.	
Covered $0	**No out-of-pocket cost** This tier includes select products that are covered with no out-of-pocket costs.	
Preventive	**No out-of-pocket cost** This tier includes drugs that are covered with no out-of-pocket costs when health care reform requirements are met. When health care reform requirements aren't met, the drug isn't covered.	
Preferred generic	**Generic – lowest out-of-pocket cost** This tier includes nonspecialty generic drugs and select specialty generic drugs. Members pay the lowest copay for generics, making them the most cost-effective option for treatment.	**Preferred generic – lower generic out-of-pocket cost** This tier includes common, nonspecialty generic and select brand-name drugs that treat certain chronic diseases. Offering these drugs at the lowest out-of-pocket costs makes them more accessible to members and helps ensure they take them as prescribed.
Nonpreferred generic		**Nonpreferred generic – higher generic out-of-pocket cost** This tier includes nonspecialty generic drugs and select specialty generic drugs that aren't preferred generics. Nonpreferred generic out-of-pocket costs are higher than preferred generic drugs but still lower than the costs for brand-name drugs.
Preferred brand	**Preferred brand – higher out-of-pocket cost** This tier includes nonspecialty and select specialty brand-name drugs. These drugs are more expensive than generics, and members pay more for them.	
Nonpreferred brand	**Nonpreferred brand – highest out-of-pocket cost** This tier includes nonspecialty, brand-name drugs for which there's either a generic alternative or a more cost-effective, preferred brand-name drug available. Members pay more for these nonpreferred brand-name drugs.	
Preferred specialty	**Specialty** This tier includes brand name and select specialty generic drugs, that are used to treat difficult health conditions.	**Preferred specialty – lower out-of-pocket cost** This tier includes brand-name and select specialty generic drugs that are used to treat difficult health conditions. These drugs are generally more cost-effective than nonpreferred specialty drugs.
Nonpreferred specialty		**Nonpreferred specialty – higher out-of-pocket cost** This tier includes nonpreferred brand-name, specialty drugs that are used to treat difficult health conditions. Members pay more for nonpreferred specialty drugs because there are more cost-effective generic or preferred drugs available.

Drug list information

In this drug list, some medications are noted with letters next to them to indicate which ones may have coverage requirements or limits. Your drug plan determines how these medications may be paid for.

AL	**Age limit** – Age restrictions apply.
ABA	**Authorized brand alternative** – Approved brand medication marketed by either the brand company or another company without the brand name on its label. Authorized brand alternatives are drugs that are considered brand-name drugs and don't have generic equivalents. These drugs are the same as the brand-name drugs but are not true generic drugs. The respective brand out-of-pocket costs will apply for these medications. Some authorized brand alternatives may not be covered.
OVM	**Oncology Value Management –** Prior authorization for antineoplastics and oncology supportive care drugs is required through the Oncology Value Management program, which is administered by OncoHealth. Your doctor is required to submit more information to determine coverage.
PA	**Prior authorization** – Your doctor is required to give more information to determine coverage.
PV1	**Preventive 1** – Covered with no out-of-pocket costs when health care reform requirements are met. When health care reform requirements aren't met, the drug isn't covered.
PV2	**Preventive 2** – Covered with no out-of-pocket costs when health care reform requirements are met. When health care reform requirements aren't met, coverage and applicable out-of-pocket costs apply, based on each member's benefit design.
PV3	**Preventive 3** – Covered with no out-of-pocket costs when health care reform requirements are met. When health care reform requirements aren't met, coverage and applicable out-of-pocket costs apply, based on each member's benefit design. Additional coverage requirements may apply.
QL	**Quantity limit** – The quantity of medication dispensed at one time is limited.
SP	**Specialty medication** – Specialty medications treat complex health conditions and may require special handling or administration.
ST	**Step therapy** – Requires you try one or more preferred drugs before a higher-cost medication can be covered.
15DS	**15-day supply** – Limits the amount of certain specialty drugs to a 15-day supply to help reduce out-of-pocket costs and waste.

How prior authorization, step therapy and quantity limits work

Prior authorization

Prior authorization may be necessary for coverage of certain medications. In these cases, the member must meet clinical criteria or additional information must be provided before coverage is approved. Clinical criteria are based on current medical information and approved by our Pharmacy and Therapeutics Committee.

Step therapy

Drugs subject to step therapy may require previous treatment with one or more preferred drugs before coverage is approved.

For a current list of drugs requiring prior authorization or step therapy, see the **Prior authorization and step therapy coverage criteria** and refer to the column labeled *BCN,* then *Custom Select Drug List*.

Quantity limits

For certain medications, BCN limits the quantity that can be dispensed per fill. BCN sets quantity limits based on clinical appropriateness and manufacturer-recommended dosing for select drugs.

For a current list of drugs that have limits on the quantity that can be dispensed per fill, please see the **Quantity Limit Program**, and refer to the *BCN Custom Select Drug List*.
