# YOUR VALUE

Our wellness programs are free and personalized. And we offer financial incentives as encouragement to participate.

Service Benefit Plan coverage supports your employees in getting and staying healthy. We'll show you how they can use the wellness programs to set and meet health and fitness goals.

- The **Blue Health Assessment** addresses your employees' health risks. It only takes 10-20 minutes to complete online and allows us to customize health-related recommendations to help members improve or maintain their health. They may also earn incentives for completing the BHA and also get an updated report throughout the year.
- Our online coaching tool called **Daily Habits** program offers members a tailored plan that focuses on their health and wellness goals. Your employees may earn rewards as they reach their goals related to exercise, stress management, emotional health, weight loss, nutrition, heart artery disease, heart failure, chronic obstructive pulmonary disease, hypertension and asthma.
- Using our **Nurse Line**, members can call, chat online or email a registered nurse for reliable health information 24/7. They're available at **1-888-258-3432** or at **fepblue.org**.
- **Teladoc Health**® makes it easier than ever for members to get the care they need. They can talk with board-certified doctors by phone or video anytime, anywhere. Visit **fepblue.org/telehealth** or call **1-855-636-1579** to get started.

Teladoc Health® is an independent company that provides telehealth services to Blue Cross and Blue Shield Service Benefit Plan members.

- Our mobile app helps members understand their healthcare plan and how it works. It connects them securely to the health plan info on their member account when they need it. From deductibles to claims to out-of-pocket costs, members will have the information to manage their plan and get the most from their coverage, wherever they go.
