Prior Authorization / Step Therapy Program
2024 Plan Year
Updated 12/1/2024

BCBSM –Medicare Plus Blue Group PPO and Prescription Blue Group PDP monitors the use of certain medications to ensure our members receive the most appropriate and cost-effective drug therapy. **Prior authorization** (PA) for these drugs means that either clinical and/or administrative criteria must be met before coverage is provided. Drugs subject to **step therapy** (ST) may require previous treatment with one or more formulary drugs prior to coverage. Drugs that must meet clinical/administrative criteria are identified in the formulary list with (PA) or (ST). Medications that require PA or ST are listed below. Drugs with PA criteria are listed first followed by drugs with ST criteria. Please refer to the Formulary to verify if your drugs are covered. Your physician can contact our pharmacy help desk to request prior authorization or step therapy for these drugs.

The clinical criteria for authorization are based on current medical information and the recommendations of the Blues' Pharmacy and Therapeutics Committee, a group of physicians, pharmacists and other experts.

Please call the customer service number on the back of your Blue Cross member ID card if you have questions about your drug coverage or a drug claim.
