Introducing Medicare

There's a lot to consider when choosing your Medicare coverage relax, we've got your back. Here's how it works.

Original Medicare is a federal health insurance program for eligible adults ages 65 and older and those younger than 65 with a medical disability who qualify. It has two parts — Part A and Part B.

PART hospital insurance

Medicare Part A acts as hospital insurance.

Part A helps pay for inpatient care in hospitals, hospice care, home health care and care provided in a skilled nursing facility. Most people don't pay a premium for Part A.

PART

medical insurance

Medicare Part B provides medical

insurance. Part B helps cover doctor visits, procedures that don't require an overnight hospital stay and some preventive care services, such as flu and pneumonia shots. Most people pay a monthly premium for Part B, which is based on income. The monthly premium for Part B is typically taken out of your Social Security benefit.

Part A and Part B = Original Medicare

Original Medicare is a fee-for-service program managed by the federal government. When you choose Original Medicare, you get what's included in Medicare Part A and Part B. Original Medicare doesn't include most prescription drugs or supplemental benefits, such as routine dental and vision care.

> There's also a state-approved offering, known as Medicare supplement insurance. Medicare supplement helps pay costs that aren't paid for by Original Medicare, as well as your share of the costs for Medicare services.

PART Medicare Advantage

Medicare Part C, known as Medicare Advantage, integrates Medicare Part A and Part B, and often Part D, with additional medical benefits not covered by Original Medicare. Medicare Advantage plans are available through private health insurers and provide extras, such as:

- Dental care
- Hearing aids and eyewear
- Health assessments
- Resources for managing chronic conditions
- Wellness and fitness programs
- Preventive services and annual wellness exams at no additional cost

PART prescription drug coverage

Medicare Part D helps cover your cost for prescription drugs if you have Original Medicare. Part D plans are managed by private insurers.

A Part D drug plan can be added to your Medicare benefits as a stand-alone plan if you've chosen Original Medicare and a Medicare supplement plan. Another costeffective way to buy Part D drug benefits is to get them through a Medicare Advantage plan with hospital and medical coverage.

When you enroll in a Medicare Advantage plan, you receive all the entitlements and privileges of Original Medicare. You're simply choosing to assign the administration of your Medicare benefits to a private insurer, such as Blue Cross, and receive your benefits through the Medicare Advantage plan you join. Each policy covers one person, meaning you and your spouse would purchase separate policies.

Your Medicare Advantage enrollment timeline

Enroll during your initial enrollment period, the seven-month window around your 65th birthday.

Join or change plans during the annual election period (Oct. 15 through Dec. 7).

Sign on during a special enrollment period (for certain situations).

Your 65th birthday month

To be eligible for a Medicare Advantage plan, you must:

- Be a U.S. citizen
- Live in the plan's service area at least six months of the year
- Be entitled to Medicare Part A
- Have enrolled in Medicare Part B
- Continue to pay your Part B premium

Medicare supplement

Medicare supplement plans help bridge the gap between what Original Medicare covers and the total cost of medical services. They cover all or a portion of Medicare deductibles and coinsurances; plans are accepted nationwide. As long as you pay your premium, a Medicare supplement policy is guaranteed renewable.

If you're within your Medigap open enrollment period (see below), your premium won't be adjusted based on preexisting conditions or your current health status. In instances where you're outside of your Medigap open enrollment period, your monthly premiums may be affected by health status and use of tobacco or nicotine.

It's important to understand that the benefits within the plans that are offered nationwide are standard.

To be eligible for a Medicare supplement plan, you must:

- Be enrolled in Medicare Part A and Part B
- · Live in Michigan at least six months of the year

Your Medicare supplement enrollment timeline

Enroll during your Medigap open enrollment period. It lasts six months and begins on the first day of the month in which you're both 65 or older and enrolled in Medicare Part B.

During this period, you can't be denied a Medicare supplement policy or charged more due to past or present health conditions. You are also able to enroll outside of your Medigap open enrollment period, but may be subject to medical underwriting.

⁴Plan N pays 100% of the Part B coinsurance, except for a copay of up to \$20 for some office visits and up to a \$50 copay for emergency room visits that don't result in an inpatient admission.

²Plans C, F and HD-F are only available for those who have a Medicare eligibility date prior to Jan. 1, 2020.

³There are two high-deductible plans, HD-F and HD-G. If you are eligible for either plan and decide to enroll, this means you must pay for Medicare-covered costs up to the deductible amount of \$2,700 for 2023 before your supplement plan pays anything.

⁵Per benefit period. A benefit period begins on the first day you receive services as an inpatient in a hospital and ends after you've been out of the hospital and haven't received skilled nursing care in any other facility for 60 consecutive days.

⁶The Part B deductible needs to be met only once each calendar year (Jan. 1 through Dec. 31). After, Medicare makes payments up to the limiting charge established by law and shown on your Medicare explanation of benefits.

You may qualify for a household discount

We're happy to offer a household discount to Blue Cross Medicare Supplement members.

If you're a Blue Cross Medicare Supplement member, you may be eligible to save 10% on your monthly premium. To learn more about the household discount, visit https://www.bcbsm.com/ medicare/help/understanding-plans/supplement/household-discounts.html.

> **Note:** There doesn't need to be a spousal or familial relationship between the policy holders to make them eligible for the discount; however, you must live in the same household. A household is defined as a singlefamily home, a condominium or an apartment. Assisted living facilities, group homes, adult day care facilities, nursing homes or any other health residential facilities aren't included in the definition of household.

Like Medicare, Blue Cross Medicare Supplement coverage is accepted nationwide and the plan is easy to use. There are no provider networks or referrals — just use any health care provider who accepts Original Medicare. Simply present your Blue Cross Medicare Supplement member ID card with your red, white and blue Medicare health insurance card whenever you receive health care services. We'll coordinate payment with Medicare and your health care providers. In most cases, you'll never have to bother with claim filing or paperwork.
