Your High-Deductible Health Plan Preventive Drug Coverage

Your Blue Cross Blue Shield of Michigan and Blue Care Network benefits include coverage for preventive prescription drugs for a healthier lifestyle. This includes drugs that help you lose weight, lower your cholesterol and blood pressure, and drugs that treat other common conditions. You don't have to meet a deductible before these drugs are covered and you pay your coinsurance or copayment amount.

The high-deductible health plan preventive drug categories include:

- [Alcohol dependence](#)
- [Cholesterol-lowering agents](#)
- [Fluoride preparations](#)
- [Hypertension - high blood pressure-lowering agents](#)
- [Prenatal vitamins](#)
- [Weight loss](#)

For a list of preventive drugs, see the following pages. Depending on your plan, some drugs on this list may not be covered and you'll have to pay the full price of the drug. Your plan's approved drug list and coverage rules determine what's covered.

For more information, please call the Customer Service number on the back of your Blue Cross or BCN member ID card.

Please note:

- This list is not all-inclusive and is subject to change.
- Many of these drugs are available as generics and are listed by the brand and generic names. If a brand is available as a generic equivalent, the brand is typically not covered or requires a higher copay, depending on your plan.
- Preventive drugs must be covered under your prescription drug plan to be payable.
- The approved drug list rules override the preventive drug list. Drugs that are not covered under the “closed formulary” of approved drugs won’t be covered under the preventive drug program.
- Your preventive drug list may differ from the standard program. Call the Customer Service number on the back of your Blue Cross or BCN member ID card to see if a drug is included in your preventive drug program.
- Blue Cross and BCN believe that these compounds likely satisfy the safe harbor for preventive care. However, Blue Cross and BCN cannot guarantee or provide any legal advice on the manner in which these products are prescribed for preventive purposes or that the Treasury Department would agree that all satisfy the definition of “preventive care.”
