

# It may be time to get screened.

Do it for your loved ones. Do it for you.

There's no better time than **now** to talk to your primary care provider about your options for cancer screenings.

## Why?

- Preventive services may save your life.
- Knowing your test results can provide peace of mind.
- You may identify an issue early when it's easier to treat.
- It's covered with your health care plan when prescribed by your doctor.

**Call your doctor today to discuss cancer screenings  
and schedule your appointment.**
