

Northwood, Inc. is Blue Cross Blue Shield of Michigan's durable medical equipment, prosthetic, orthotic and diabetic supplier

Beginning January 1, 2021, Blue Cross Blue Shield of Michigan will move to durable medical equipment, prosthetics and orthotics and medical supplies network that is managed by Northwood, Inc.

This means that members will need to receive these services and supplies from a **Northwood** provider, starting **January 1, 2021**. You can find a Northwood provider using the **Find a Doctor** tool on bcbsm.com or through your member account.

Examples of these types of services or supplies:

- CPAP machine, walker, cane, crutches
- Oxygen/respiratory equipment, and custom rehabilitation equipment
- Custom equipment such as cervical collars, braces and limb replacement (prosthetics), orthotics
- Diabetic supplies, dressings, etc.

While Northwood has a large network of providers, their network is smaller than the network Blue Cross currently uses. Northwood is working to contract with Blue Cross' durable medical equipment, prosthetic and orthotic providers to continue to add to their network.
