

Throat all scratchy?  
Got something  
catchy?

Why wait?

There's a place  
for that.

## Retail health clinics

You can find retail health clinics in places you already visit, like certain drug store chains near your home or workplace. They're typically separate from the rest of the store and have private exam areas.

So when you want convenient care right away but you can't see your primary care doctor, drop in to a retail health clinic. You can get a quick in-person evaluation and a prescription, if you need it.

When it's not an emergency,  
you have choices for care. Learn more.

Remember to coordinate all care with your primary care doctor. Blue Cross Blue Shield of Michigan and Blue Care Network are nonprofit corporations and independent licensees of the Blue Cross and Blue Shield Association.

At retail health clinics, you can get treatment for minor illnesses such as:

- Sore throat and cough
- Colds and flu
- Sinus infections

Why go to a retail health clinic?

- Evening and weekend hours
- Convenient locations near where you live and work
- Care provided by physician assistants and certified nurse practitioners, overseen by a U.S. board-certified doctor
