

Getting Started With Your Specialty Medication

Whether you're a new patient with us—or it's your first time taking a specialty prescription—your health and wellbeing are the focus of everything we do. While taking a specialty medication may seem complicated, it doesn't have to be.

Caring For You

We care about what you're going through. And we're ready to help you manage your condition and specialty medicines with personalized support. Our Care Team is here to provide you with assistance and support to:

- Schedule delivery times and locations
- Help find financial assistance options
- Assist with prior authorizations
- Help manage medication side effects

How To Get Started

Please have the following with you:

- Health plan/prescription member ID card
- Prescribing doctor's name, telephone and fax
- Specialty medication information, including medication name and strength

3 Easy Steps

1. Call AllianceRx Walgreens Prime at 866-249-5367 to enroll
2. Register for your online account at alliancerxwp.com/register
3. Have your doctor send us your specialty prescription through e-prescribe
