Save money on specialty and other expensive drugs with our high-cost drug discount program

Specialty and other high-cost prescription drugs have made headlines in recent years for their rising costs nationwide. If you're taking any of these medications regularly, you may be paying hundreds of dollars each time you get a refill. That can make it hard to afford your medicine, even though you know how important it is to take it as your doctor ordered.

We can help

Blue Cross Blue Shield of Michigan and Blue Care Network can help you meet that challenge. Our high-cost drug discount program helps you find and take advantage of manufacturer copayment assistance programs that significantly lower your out-of-pocket costs for these expensive medications. You may even pay nothing for your medicine. You'll never pay more than the amount you paid before joining the program.

And the program is free.

How it works

- Blue Cross and BCN will identify all members who are taking a qualifying medication.
- Our vendor, PillarRx, will send you introductory information and then call to enroll you.
- A representative will explain how the program works, what to expect at the pharmacy and answer your questions.
- PillarRx sends all the information needed for your discount to your pharmacy.
- Only the amounts you pay for your prescriptions will apply to your plan's annual out-of-pocket maximum.
