Convenience and value built into every plan

A Blue Care Network prescription drug plan offers convenience first. You'll have access to more than 95% of pharmacies in Michigan. And if you also have BlueCard® travel coverage, you'll have access to thousands of pharmacies nationwide, including most major chains.

Because prescription drugs can be costly, we promote the use of generic drugs, which work the same as their brand-name equivalents.

Our value-based drug tiers further help reduce costs by offering some brand-name medications at generic copayment levels. And we offer copay discounts when you get up to 90-day supplies of certain medications.

Coverage depends on your plan

Blue Care Network prescription drug plans are not all alike.

Visit bcbsm.com/bcndruglists and browse our drug lists. Every list shows the most frequently prescribed drugs, and whether the drug has special requirements for coverage.

Connect your medical and pharmacy coverage

You get comprehensive care when your medical care and pharmacy coverage are provided through the same plan. That's because your health and safety are the crucial link between the two.

Safety is paramount

As an HMO, we review the use of certain drugs to make sure you receive the most appropriate drug therapy. We make our decisions based on current medical information and the recommendations of our Pharmacy and Therapeutics Committee — a group of doctors, pharmacists and other health care experts.

The drugs we focus on are those that:

- Have dangerous side effects
- Are harmful when combined with other drugs
- Should only be used for certain health conditions
- Are often misused or abused

Narcotic drugs such as opioids fall into more than one of these categories.

We also look at drugs that are prescribed when other equally effective drugs are available at a lower cost. Specialty drugs must be filled through an AllianceRx Walgreens Prime pharmacy.

Resources

When your doctor writes you a new prescription, you'll want to know whether your plan covers that drug and how much it will cost you. We make it easy for you to find the information in print and online.

Download our mobile app by searching **BCBSM** from your Apple® iPhone® or Android™ phone. Then use the app to research drug prices and see what your plan covers.

Create a member account at bcbsm.com to view your prescription drug benefits and cost sharing information. Members can also locate participating pharmacies and print a personal prescription history.

Once you're enrolled you'll receive a *Member Handbook*, that's customized to your Blue Care Network plan. This book provides important information regarding your drug coverage.
