# Understanding your health care plan

Your online **member account** can help you understand how your plan works — and how to get the most from it.

Here's an example: Lisa strains her knee while running. Her primary care provider recommends physical therapy twice a week for roughly two months to strengthen the ligaments surrounding her knee.\* Lisa asks herself:

## "Does my plan include physical therapy?"

Lisa checks her account to see if physical therapy is a benefit under her health plan. She's allowed up to 20 visits each year.

## "But how close am I to reaching my deductible?"

Lisa has a deductible of \$2,600. Her account shows she needs to pay \$1,000 to meet the deductible before her health plan will pay most of the remaining cost.\*

## "Can I pay for my portion out of my health spending account?"

Lisa's account shows she has enough to pay her portion of physical therapy. Because she's had few health expenses during the year, she also has enough to pay for the deductible and qualified medical expenses that aren't paid by her plan.

## "Who do I see?"

Lisa's primary care provider recommends a physical therapist who's close to Lisa's home. Before making an appointment, Lisa checks her account for more details. She sees he's accepting new patients and takes her plan. Lisa schedules an appointment.
