Saver90 Walgreens option saves on maintenance medications

A FLEXIBLE SOLUTION THAT MAXIMIZES PLAN SAVINGS BY ENABLING MEMBERS TO CHOOSE GETTING 90-DAY SUPPLIES OF MAINTENANCE MEDICINES DELIVERED BY THE OPTUM HOME DELIVERY PHARMACY OR AT WALGREENS RETAIL PHARMACIES

Saver90 is a choice-based plan design for group customers who want to control prescription drug spending with minimal member disruption. Members choose how to fill their 90-day supplies of their long-term medicines.

Benefits

- Aggressively discounted pricing delivers significant savings for group customers and members:
 - Group customers save as much as 2% to 4% when members get their 90-day supplies through the Saver90 program.
 - Members pay a lower copayment
- Members choose between two convenient options for buying their maintenance medications, home delivery or retail pharmacy pickup:
 - Optum Home Delivery provides 24/7 access to pharmacists who can answer questions about chronic and complex conditions.
 - Walgreens retail stores are in 9,200 convenient locations across the country.
- The convenience of 90-day fills and home delivery improves patient adherence with their doctors' prescribed therapies. That improves members' health outcomes and lowers overall health care costs.

How it works

MEMBER

**Chooses
a Saver90
option**

OR

Home delivery of a 90-day supply
from the Optum Home Delivery
pharmacy

Pickup of a 90-day supply from
a Walgreens retail pharmacy

**Fills a 30-day
supply at a
pharmacy not
in the Saver90
program**

Blue Cross will allow up to
two 30-day fills at any retail
pharmacy in our network.

We send a reminder to choose a
90-day supply method, after
the first and second courtesy fills.

If the member still doesn't choose
a Saver90 option, he or she will pay
100% of the prescription cost. We'll
also send a more urgent reminder
to choose a 90-day supply method
and repeat this quarterly.
