Lymphedema-Surgical Treatments – Medicare Advantage

Medicare Advantage Plan

☒ Medicare Plus BlueSM

☒ BCN AdvantageSM

UM Committee Approval Date: 3/18/2026

Effective Date: 4/18/2026

Description

For patients who have not responded to conservative treatment, surgical management may offer a path forward in managing lymphedema. Surgical treatment for this chronic condition is a nuanced and multifaceted approach, designed to alleviate swelling, restore function, and significantly improve the overall quality of life for those affected.

When considering surgical treatment, a thorough evaluation is essential to determine the best course of action. This involves assessing the severity of the lymphedema, the patient's overall health, and carefully weighing the potential risks and benefits of surgery. A personalized approach is crucial, as each patient's needs and circumstances are unique.

There are three primary surgical approaches to treating lymphedema, each with distinct goals and benefits:

1. **Reductive Techniques:** Excisional operations (also known as debulking or ablative procedures) and liposuction are used to reduce the volume of the affected limb by removing excess tissue. These procedures can help alleviate swelling and improve mobility.
 2. **Lymphatic Reconstructions:** These microsurgical techniques, also known as physiologic or functional procedures, aim to restore or improve lymph flow in the affected area. By enhancing lymphatic function, these procedures can help reduce swelling and promote overall limb health.
 3. **Combination Approaches:** For some patients, a combination of reductive techniques and lymphatic reconstructions may be the most effective approach. This tailored strategy allows for a more comprehensive treatment plan, addressing both the physical and functional aspects of lymphedema.

Policy Guidelines

Blue Cross Blue Shield of Michigan (BCBSM) and Blue Care Network of Michigan (BCN) adhere to guidance from the Centers for Medicare and Medicaid Services (CMS), including when performing organization determinations for Medicare Advantage plan members. CMS Medicare statutes, regulations, manuals, National Coverage Determinations (NCDs), Local Coverage Determinations (LCDs), Local Coverage Articles (LCAs) and other sub-regulatory guidance provide the clinical guidelines for coverage determinations, payment integrity functions, and all other uses by CMS regulations. When CMS Medicare guidance is silent, incomplete, or insufficient, CMS permits BCBSM/BCN to utilize “internal coverage criteria”, such as independent criteria, health plan policy research, LCD/LCAs outside the services area or research from independent medical research repositories (i.e., Hayes) for coverage policies 42 CFR § 422.101. BCBSM/BCN internal medical coverage policies are developed and based on current evidence in widely accepted treatment guidelines or clinical literature; in addition, they address how clinical benefits may or may not outweigh member harm.

Clinical review follows guidance provided in the BCBSM Medicare Advantage Coverage Determination Hierarchy policy, which may be found at <https://www.bcbsm.com/providers/mpradmin/> by entering the policy name.

Coverage Guidance

To ensure consistency with coverage guidance, the Medicare statutes, regulations, coverage manuals, NCD, LCD, and LCA should be reviewed and applied first. BCBSM/BCN internal coverage criteria should only be applied when CMS guidance is silent, incomplete, or insufficient for a code.

Apart from durable medical equipment (DME), Medicare Administrative Contractor (MAC) jurisdiction for the purpose of clinical determination is based upon place of service. The place of service for laboratory testing is defined as the geographic location of the reference laboratory. Non-jurisdictional LCD/LCAs may not be utilized for a determination unless they have been specifically identified as internal coverage criteria by the policy. Alternatively, jurisdiction for DME MAC is determined by the member place of residence. Please see CMS Medicare Administrative Contractors (MAC) table for state MAC assignments below.

CMS Guidance	Additional Guidance
National Coverage Determinations 310.1 Routine Costs in Clinical Trials For additional information related to clinical trials related to Lymphedema surgical treatments please refer to this URL: https://clinicaltrials.gov	BCBSM/BCN will follow CMS guidance as the primary source for coverage determinations. However, in instances where CMS guidance is silent, incomplete, or insufficient for a particular code, BCBSM/BCN internal coverage criteria will be applied to ensure consistent and informed decision-making.
Local Coverage Determinations and Articles None	In such cases, please refer to the relevant BCBSM/BCN policy for guidance: <i>Lymphedema-Surgical Treatments</i> To access this policy, please visit the BCBSM Medical Policy Router Search page at https://www.bcbsm.com/providers/mpradmin/ and enter the policy name in the search field.

Code	Description
15833	Excision, excessive skin and subcutaneous tissue (includes lipectomy) leg. Excessive skin and subcutaneous tissue (including lipectomy) leg.
15836	Excision, excessive skin and subcutaneous tissue (including lipectomy) arm
38589	Unlisted laparoscopy procedure, lymphatic system.
38999	Unlisted procedure, hemic or lymphatic system.
49329	Unlisted laparoscopy procedure, abdomen, peritoneum and omentum [as it relates to Lymphedema-Surgical Treatments]
49999	Unlisted procedure, abdomen, peritoneum and omentum [as it relates to Lymphedema-Surgical Treatments]
1019T	Lymph venous bypass, including robotic assistance, when performed, per extremity

Important Reminder

BCBSM and BCN follow CMS Medicare coverage guidance to limit coverage to items and services that are reasonable and necessary for the diagnosis or treatment of an illness or injury or to improve the functioning of a malformed body member. Medicare Advantage Medical Policies list the criteria BCBSM and BCN use to decide which medical services are

considered “reasonable and necessary” when Medicare coverage rules are not fully developed, or as otherwise may be permitted by CMS Medicare regulations. Individual member benefit plan documents, such as the Evidence of Coverage and Annual Notice of Change, as well as applicable laws govern benefit coverage, including any inclusion, exclusion, and/or other restrictions.

Medicare Advantage Medical policies are created when permitted by CMS Medicare regulations, reviewed regularly, and may be revised periodically. BCBSM/BCN Medical Policies are proprietary and should not be copied or disseminated without the express, prior written approval of BCBSM. All providers are required to review applicable BCBSM reimbursement policies prior to claim submission and bill for covered services in accordance with those policies. Additionally, providers contracted with BCBSM or BCN’s Medicare Advantage network(s) should review the provider manual for any additional claim submission requirements. Providers not contracted with BCBSM or BCN’s Medicare Advantage network may be required to submit documentation to BCBSM, BCN, or its delegated entity supporting billed claims, including but not limited to applicable medical records.

Note: U.S. Food and Drug Administration (FDA) approval for a specific indication or the issuance of a CPT code is not sufficient for a procedure to be considered medically reasonable and necessary. Similarly, the presence of a procedure/device code or payment amount for the service in the Medicare fee schedule does not necessarily indicate coverage. If a service is deemed not reasonable and necessary, to treat illness or injury for any reason (including lack of safety and efficacy because it is an experimental procedure, etc.), the procedure is considered not covered.

Disclaimer: This medical policy is not an authorization, certification, explanation of benefits, or a contract for the services, devices, or drugs that is referenced in the medical policy. Medical policies do not constitute medical advice and do not guarantee any results or outcomes or guarantee payment. The medical policy is not intended to replace independent medical judgment for the treatment of individuals. Treating physicians and health care providers are solely responsible for determining what care to provide to their patients. Identification of selected brand names of devices, tests and procedures in a medical coverage policy is for reference only and is not an endorsement of any one device, test, or procedure over another.

Pursuant to Section 1557 and Section 504, Blue Cross does not discriminate on the basis of race, color, national origin, age, disability, or sex (including sex characteristics, intersex traits; pregnancy or related conditions; sexual orientation; gender identity, and sex stereotypes). This includes our rules, benefit designs and medical policies.

BCBSM/BCN Medicare Advantage Policy History

Policy Effective Date	UM Committee Approval Date	Comments
08/17/2024	07/17/2024	Medicare Advantage policy established
04/19/2025	03/19/2025	Annual Review: MA policy foundational language updated. Adoption of JUMP policy updates.
04/18/2026	03/18/2026	Annual Review: Reformatted guidance and code tables. Updated CMS guidance with adding NCD 310.1. Adoption of JUMP policy updates.
