Gradient compression stockings

Gradient compression stockings are specialized hosiery that are tightest at the ankles and become less constrictive up the leg. They're used to help increase circulation, prevent the formation of blood clots, and treat ulcers of the lower legs.

By compressing surface veins, arteries and muscles beneath the skin, arterial pressure is increased. The increased pressure leads to improved blood flow, decreasing the pooling of blood in the lower legs and feet, and swelling.

Mastectomy sleeves

A mastectomy sleeve is commonly used to prevent and treat lymphedema, which may occur after breast cancer surgery if the natural flow of lymph fluid is disrupted, causing pain and severe swelling in the arm.

Original Medicare

Original Medicare covers gradient compression stockings for the treatment of lymphedema and the treatment of an open venous stasis ulcer. Gradient compression stockings that serve a therapeutic or protective function and that are needed to secure a primary dressing may be covered as a surgical dressing benefit.

Original Medicare limits the benefit as follows:

- The beneficiary must have an open venous stasis ulcer that has been treated by a physician or other health care professional requiring medically necessary removal of dead, damaged or infected tissue.
- The gradient stocking must be proven to deliver compression greater than 30 mm Hg and less than 50 mm Hg.
- When a covered gradient compression stocking is provided to a patient with an open venous stasis ulcer, the modifier AW (item furnished in conjunction with a surgical dressing) must be added or the claim will be denied as a noncovered service.
- Gradient compression stockings aren't covered for the following conditions:
 - Venous insufficiency without stasis ulcers
 - Prevention of stasis ulcers
 - Prevention of the reoccurrence of stasis ulcers that have healed

Original Medicare doesn't cover HCPCS code L8010 – breast prosthesis, mastectomy sleeve – because it doesn't meet the definition of a prosthesis.

Medicare Plus BlueSM Group PPO enhanced benefit

Medicare Plus BlueSM PPO is a Medicare Advantage plan that provides at least the same level of benefit coverage as Original Medicare (Part A and Part B) and may provide enhanced benefits beyond the scope of Original Medicare within a single health care plan. The flexibility allows Blue Cross to offer enriched plans by using Original Medicare as the base program and adding desired benefit options.

Blue Cross Blue Shield of Michigan

bcbsm.com/providers

Select Medicare Plus BlueSM Group PPO plans provide expanded coverage for gradient compression stockings and mastectomy sleeves. The enhanced benefit includes a wider range of style options and isn't as limited in the medical circumstances under which compression stockings or mastectomy sleeves may be covered. The scope of the benefit, reimbursement methodology, maximum allowable payment amounts and member's cost sharing are determined by the group.

Conditions for payment

The table below specifies payment conditions for gradient compression stockings. Prior authorization is required. For a list of services that require prior authorization, view the "[Procedure codes for which providers must request prior authorization](#)" document.

Conditions for payment	
Eligible provider	DME / Prosthetics and Orthotics supplier
Payable location	No restrictions
Frequency	A6530 to A6538: Total four pairs per 12 months A6539 to A6541: Total eight units per 12 months A6544: Any appropriate frequency City of Livonia, State Health Plan Medicare Advantage PPO and U of M only: L8010: 2 units per 12 months
HCPCS codes	A6530, A6531, A6532, A6533, A6534, A6535, A6536, A6537, A6538, A6539, A6540, A6541, A6544, A6549 City of Livonia, State Health Plan Medicare Advantage PPO and U of M only: L8010
Diagnosis restrictions	No restrictions
Age restrictions	

Reimbursement

Medicare Plus Blue Group PPO plan's maximum payment amount for the gradient compression stockings obtained from a Northwood provider is available by contacting Northwood, Inc at provideraffairs@northwoodinc.com.

Medicare Plus Blue Group PPO plan's maximum payment amount for the gradient compression stockings obtained from a non-Northwood provider is available on our provider website on the Medicare Plus Blue Enhanced Benefits [Fee Schedule](#). The provider will be paid the lesser of this allowed amount or the provider's charge, minus the member's cost sharing. This represents payment in full, and providers aren't allowed to balance bill the member for the difference between the allowed amount and the charge.

Member cost sharing

- Medicare Plus Blue PPO providers should collect the applicable cost-sharing amount from the member at the time of the service when possible. Cost sharing refers to a flat-dollar copayment, a percentage coinsurance or a deductible. Providers can only collect the appropriate Medicare Plus Blue PPO cost-sharing amounts from the member.
- If the member elects to receive a noncovered service, he or she is responsible for the entire charge associated with that service.
- Providers may not have members sign an ABN to accept financial responsibility for noncovered items or services. If there is any question about whether an item or service is covered, seek a coverage determination from Blue Cross before providing the item or service to the member. If a provider provides a noncovered item/service to a member without first obtaining a coverage determination, the member must be held harmless for all charges except for any applicable cost-share.

To verify benefits and cost-sharing, providers may utilize our provider portal or call 1-866-309-1719.

Billing instructions for providers

1. Bill services on the CMS 1500 (02/12) claim form.
2. Use the Medicare Advantage PPO unique billing requirements.
3. Report CPT/HCPCS codes and diagnosis codes to the highest level of specificity.

4. Report your National Provider Identifier number on all claims.
5. Submit claims to your local Blue plan.
6. Use electronic billing:
 - a. Michigan providers:

Copies of the ANSI ASC X12N 837 and 835 institutional Health Care Claim and Health Care Claim Payment/Advice (Blue Cross Electronic Data Interchange Institutional 837/835 Companion Documents) are available on the Blue Cross website under the reference library section at: www.bcbsm.com/providers/help/edi/.
 - b. Providers outside of Michigan should contact their local Blue plan.

Additional billing instructions

Effective for claims with dates of service on or after March 8, 2015, Blue Cross Blue Shield of Michigan's Medicare Plus Blue plan will reimburse 35 percent above the supplier invoice cost for unspecified gradient compression stockings (HCPCS code: A6549). Please submit the supplier invoice along with supporting documentation when submitting the claim. Claims submitted without the supplier invoice will be denied for payment.

When billing HCPCS codes A6530 to A6538 for gradient compression stockings, report the appropriate modifier (left - LT, right - RT). When the same code for bilateral items (left and right) is billed on the same date of service, bill both items on the same claim line using LT and RT modifiers, and two units of service.

Revision history

Policy number: MAPPO 1014

Reviewed: 12/03/2024, 08/30/2023, 08/31/2022, 08/25/2021, 11/20/2020, 03/18/2019, 07/17/2018

Revised dates: 12/03/2024, 10/17/2024, 06/26/2024, 11/30/2023, 11/13/2019, 03/18/2019, 04/24/2016, 08/18/2015, 01/2015

12/03/2024: Added City of Livonia to policy regarding coverage of L8010. They already have this coverage but had their own policy which was retired.

10/17/2024: Added Original Medicare coverage of gradient compression stockings and mastectomy sleeves for patients diagnosed with lymphedema.

06/26/2024: Changed name of policy paper to *Compression garments* to include mastectomy sleeves covered by the State Health Plan MA PPO and U of M group plans. Added definition and Original Medicare coverage of mastectomy sleeves.

11/30/2023: Changed references of State Health Plan MA to State Health Plan Medicare Advantage PPO.

11/13/2019: Added State Health Plan Medicare Advantage PPO benefit code L8010 with frequency limits of 2 units per 12 months

03/18/2019: Clarified the total number of gradient compression stockings from eight pairs to four pairs

04/24/2016: Removed directions on ICD-9 versus ICD-10 diagnosis usage, clarified the distinction between Original Medicare and Enhanced Benefit provisions

08/18/2015: Updated formatting, revised definition of gradient compression stockings, updated billing instructions and web links, and added revision history section
