Orthopedic shoes and orthotic shoe inserts

Orthopedic shoes and orthotic shoe inserts intend to correct an abnormal or irregular walking pattern by slightly altering the angles at which the foot strikes a walking or running surface.

Original Medicare

Original Medicare Part B covers the furnishing and fitting of either orthopedic shoes or orthotic shoe inserts each calendar year, if you have diabetes and severe diabetic foot disease:

- One pair of custom-molded shoes and inserts
- One pair of extra-depth shoes

Medicare also covers:

- Two additional pairs of inserts each calendar year for custom-molded shoes
- Three additional pairs of inserts each calendar year for extra-depth shoes

Medicare will cover the orthopedic shoes only as a part of a leg brace. Heel replacements and shoe transfers involving shoes on a covered brace are also covered. Inserts and other shoe modifications are covered if they are on a shoe that is an integral part of a covered brace and if they are medically necessary for the proper functioning of the brace. Shoes and related modifications, inserts, heel/sole replacements or shoe transfers billed without a KX modifier will be denied as noncovered because coverage is statutorily excluded.

Medicare lists the following devices as orthotics under the heading of Durable Medical Equipment (DME):

- Bracing for ankle, foot, knee, back, neck, spine, hand, wrist, elbow
- Orthopedic shoes as a necessary part of a leg brace
- Prosthetic devices like artificial limbs.

University of Michigan Medicare Plus Blue Enhanced Benefit

Medicare Plus Blue is a Medicare Advantage plan that provides at least the same level of benefit coverage as Original Medicare (Part A and Part B) and may provide enhanced benefits beyond the scope of Original Medicare within a single health care plan. This flexibility allows Blue Cross to offer enriched plans by using Original Medicare as the base program and adding desired benefit options.

Coverage up to 100% of the approved amount for orthopedic shoes and orthotic shoe inserts is provided to members of the University of Michigan Medicare Plus Blue plan. Because Original Medicare only covers 80% of this service, the scope of benefit, reimbursement methodology, maximum payment amounts, and the member's cost sharing are determined by the group.

Note: This enhanced benefit does not require the orthotic shoe to be attached to a leg brace.
