Specialty drug discounts your employees need – **CARE THEY CAN AFFORD**

HelpScript is a program that does just that, helps your employees with specialty scripts that are paid for through the **Blue Care Network medical benefit**. It takes the stress off their wallets when the cost of a prescribed drug for a rare or chronic condition may be more than they expected, or more than they can afford.

It's easy. HelpScript's dedicated patient advocates will assist your eligible employees every step of the way to get the care they need while reducing or eliminating high out-of-pocket costs. Whether it's an infusion in a home or clinic setting, they'll have peace of mind knowing they're saving money and getting support. Patient advocates will:

- Explain how the service works and discuss eligible medications
- Give guidance through the manufacturer assistance application process
- Ensure all available manufacturer assistance is utilized
- Interpret explanation of benefits statements, or EOBs
- Answer questions about the service

Employees can call HelpScript and speak with a patient advocate at **1-833-807-4776**. Patient advocates are available Monday through Friday, 8 a.m. to 8 p.m. Eastern time. Once enrolled, their medications will be covered completely.

Your employees don't need to choose between their health
and making ends meet. They have **HelpScript**.

Blue Care Network is working with **HelpScript** to provide manufacturer assistance for certain medications to help your employees save money. Manufacturer assistance will eliminate out-of-pocket expenses on certain high-cost medications. That's right, your employees will pay nothing for certain medications once enrolled.

To take advantage of this savings opportunity, employees should speak with a patient advocate to determine their eligibility. HelpScript will reach out to them, or they can call HelpScript and speak with a patient advocate at **1-833-807-4776**, Monday through Friday, 8 a.m. to 8 p.m. Eastern time. There is no cost to participate.

There are over **300** specialty medications that are covered, including medications for the following conditions:

- Autoimmune diseases
- Rheumatoid arthritis
- Cancer
- Multiple sclerosis and many more

Here's how it works

Blue Care Network will work with HelpScript to identify and reach out to members who may be eligible. It shouldn't take more than 15 minutes for a HelpScript patient advocate to discuss employee eligibility and the medications that are available for manufacturer assistance.

- Once enrolled, your employees' out-of-pocket cost will be \$0.
- Manufacturer assistance amounts are excluded from deductibles, coinsurances and out-of-pocket maximums.
- Only the amount paid for these medications will count toward deductibles and out-of-pocket maximums. Refer to your plan's benefit documents for more information.
- If a drug is no longer covered, HelpScript will reach out to your employee.

Employees who qualify to enroll in **HelpScript** save money;
ENCOURAGE THEM TO CALL TODAY.

Blue Cross Blue Shield of Michigan and Blue Care Network are nonprofit corporations and independent licensees of the Blue Cross and Blue Shield Association.

HelpScript is an independent company providing Blue Cross Blue Shield of Michigan and Blue Care Network members with a prescription drug manufacturer assistance service.
