Finding approved autism evaluation centers

A comprehensive assessment at an approved autism evaluation center is used to make or confirm a diagnosis of autism spectrum disorder for a member for applied behavior analysis treatment to be covered.

Blue Cross Blue Shield of Michigan and Blue Care Network continue to build a network of approved autism evaluation centers from qualified facilities. The autism evaluation centers listed in the table below have been approved by Blue Cross and BCN. These centers:

- Meet criteria developed in partnership with the Michigan behavioral health care provider community
- Have shown a comprehensive approach to the diagnosis of autism spectrum disorder that leads to the most accurate diagnoses available

For more information about autism benefits and applied behavior analysis, visit bcbsm.com/autismfaq. You can also call the number on the back of your Blue Cross or BCN ID card.

**Important!** For the most current contact information for the providers listed in the table below, check with these centers directly and confirm location details when scheduling.

Finding licensed behavior analysts

If you meet the requirements for receiving ABA, you must obtain that treatment from a licensed behavior analyst.* The analyst must obtain approval from Blue Cross or BCN before providing those services, for your treatment to be eligible for coverage.

**Note:** In addition, the licensed behavior analyst* must be a provider for your health plan.

The names of behavior analysts are available in the provider search at bcbsm.com. To access those names, complete the following steps:

2. Click *Find a Doctor*.
3. Click *Search without logging in* (under the green Get Started button).
4. Click *Choose a location*.
5. Enter the location where you want to receive treatment.
6. Click *Yes, this is correct*.
7. Click *Doctors by specialty*.
8. In the search field, type “ABA Therapy.”
9. Click the search icon.
10. In the search results, locate a behavior analyst.
Finding approved autism evaluation centers and licensed behavior analysts

Revised August 2020

11. Click the behavior analyst’s name and review the information.

   Note: In the Board Certifications field, you’ll see “No information available.” This means that the search does not display board certification data for nonphysician practitioners such as behavior analysts.

   ![Board Certifications: No information available]

   You can be sure that all behavior analysts who appear in the search results are licensed.

12. Click the Plans Accepted link and confirm that the behavior analyst accepts your plan.

   If you have questions or need assistance, contact the Customer Service number on the back of your Blue Cross or BCN ID card.

   For more information about autism benefits, visit bcbsm.com/autismfaq.

   *Effective Jan. 7, 2020, behavior analysts must be licensed by the state of Michigan to be reimbursed by Blue Cross or BCN.*
