

15-Day Specialty Drug Limitation Program

April 2018

The 15-day specialty drug limitation program for Blue Cross Blue Shield of Michigan and Blue Care Network limits the day supply of certain specialty drugs dispensed by your pharmacy. This helps to reduce copayment amounts and drug waste.

BCBSM and BCN limit ALL prescription fills for the drugs below to a 15-day supply. This includes first fills and refills. Members will pay half of their copayment for a 15-day supply. These drugs may require a prior authorization.

Blue Cross Blue Shield of Michigan
