1. Blue Cross Blue Shield of Michigan Definitions

- **Prior Authorization**
  A process that allows physicians and other professional providers to determine, before treating a patient, if Blue Cross Blue Shield of Michigan will cover the cost of a proposed service. BCBSM requires prior authorization for services or procedures that may be experimental, not always medically necessary, or over utilized. Providers must submit clinical documentation in writing explaining why the proposed procedure or service is medically necessary.

- **Precertification**
  A review of a patient’s symptoms and proposed treatment to determine, in advance, whether he or she meets Blue Cross Blue Shield of Michigan criteria for treatment in the inpatient setting. Authorizations are for the appropriateness of the inpatient setting only and additional prior authorization requirements may be needed depending on the services requested.

- **E-referral**
  Electronic system for Michigan providers to submit requests for inpatient admission.

- **Electronic Provider Access (EPA)**
  Electronic platform for out of state providers to submit requests through their local Blue’s plan portal for Blue Cross Blue Shield of Michigan members.

2. Behavioral Health

Blue Cross Blue Shield of Michigan Commercial Products (Non-Medicare)

Precertification is required for:

- Psychiatric inpatient admissions
- Psychiatric residential admissions
- Psychiatric partial hospital admissions
- Substance Use Disorder admissions

Precertification is not required for:

- Outpatient services
- Medicare primary contracts
- Coordination of benefits contracts

All inpatient partial and residential mental health and substance abuse facilities are required to notify New Directions for all admissions and discharges; most admissions will require a clinical review. You may access the New Directions Services authorization system at [webpass.ndbh.com](http://webpass.ndbh.com).

Preauthorization is required for outpatient repetitive transcranial magnetic stimulation (rTMS). It may be a benefit for patients with major depressive disorder that meet strict selection criteria. Criteria are available on the [Medical policy, precertification and preauthorization router](http://Medical policy, precertification and preauthorization router). Coverage is limited to select groups. Please verify member eligibility prior to seeking preauthorization. Claims will not be paid unless authorization is obtained.
Autism Spectrum Disorder

There are different types of services to treat autism, such as applied behavior analysis, that require an authorization before treatment for select groups. Speech therapy, physical therapy and occupational therapy do not require authorization. For services requiring preauthorization, an accurate diagnosis is necessary.

For members residing outside of Michigan, the autism diagnosis must meet the criteria specified in the multidisciplinary autism evaluation checklist. The evaluation must confirm the autism spectrum disorder diagnosis and provide a treatment plan containing a comprehensive set of treatment recommendations for the member, including a recommendation for applied behavior analysis. To obtain an accurate diagnosis, please review the *Multidisciplinary Autism Evaluation Checklist*.

If the evaluation results in a diagnosis of autism spectrum disorder and the recommended treatment is applied behavior analysis, the evaluation documentation must be taken to a licensed behavior analyst who participates with the Blue Cross plan in the state where the services would be provided. The behavior analyst is responsible for obtaining preauthorization before providing services for applied behavior analysis.

Behavioral health precertification and prior authorization (including autism) is conducted by New Directions Behavioral Health on behalf of Blue Cross Blue Shield of Michigan. Groups with other service providers can be reviewed on the BCBSM Mental Health Carve-Out List.

Call New Directions at 800-762-2382 to obtain precertification and preauthorization information. If medical records are requested for review, send the records to:

New Directions Behavioral Health  
PO Box 6729  
Leawood, KS 66206-0729
