### Sequestration suspension extended through March 31, 2022

As noted in our January 2022 *Record* [article](#), the suspension of the 2% Medicare sequestration reduction remains extended through March 31, 2022.

Beginning April 1, 2022, sequestration will resume with a reduction of 1% instead of 2% through June 30, 2022.

We'll notify you through a newsletter article or an alert as soon as we learn the status of sequestration after June 30.
