

Blue Cross and BCN extend waiving of member cost sharing for COVID-19 treatments through Sept. 30

Due to the ongoing effects of the pandemic on our members, Blue Cross Blue Shield of Michigan and Blue Care Network have decided to continue waiving member cost sharing for COVID-19 treatments through Sept. 30, 2021.

This applies to all commercial and Medicare Advantage members.

We also continue to cover physician-approved testing and associated services for the duration of the public health emergency, as required by federal guidelines. As the pandemic continues, Blue Cross and BCN want to ensure that members can get the care they need during these difficult times.
