

## Reminder: OPC providers can bill only for services that fall within their scope of practice

In an Aug. 5, 2020 provider alert and in the *Telehealth for behavioral health providers* document, we communicated that providers at outpatient psychiatric centers can bill only for services that fall within their scope of practice.

As a reminder, any claims that include procedure codes outside of the contracted scope of practice will be denied.

For more information:

- For Blue Cross commercial and BCN commercial members, see the *Telehealth for behavioral health providers* document.
- For Medicare Plus Blue<sup>SM</sup> and BCN Advantage<sup>SM</sup> members, follow Centers for Medicare & Medicaid Services guidance; for procedure codes and billing information, see the CMS [List of Telehealth Services](#) webpage.
